

**Arielle Rosales** — The pride I have after watching my students from Ballet des Amériques School & Company, Inc. perform on stage at The Emelin Theatre is very profound. These kids are some of the most talented, generous, hardworking, tenacious, creative, intellectual, & compassionate young people I have the privilege of working with. The quality of dancers and human beings these kids are developing into is a testament to the direction, dedication, and love of BdA's Director, Madame Carole Alexis, whose commitment to her mission as an Educator & Artistic Director ensures that, although my job title may be "Faculty," I will always be a student of the institution under her leadership. Congratulations to all the students, dancers, faculty, families, and staff on another successful year in the continuous growth of this wonderfully special dance community!

For those in the NY / CT area with a child passionate about dance, applications for the 2015 Summer Intensive are now open. Interested in bringing Culture & Art to your child's school or local community center? Contact [info@balletdesameriques.com](mailto:info@balletdesameriques.com) to inquire about how to bring the Dance Company of BdA to your school!
