

## Christophe Galopin - Parent

— The most professional and dedicated ballet program in Westchester. In one year, my daughter made more progress than the past three years at another school. Teachers believe in all the students in the school. The program is complete with music classes and anatomy so dancers understand music and their body.

The end of year show has amazing original choreography.

This year my daughter is attending the Conservatory program, which is a day program for cyber and homeschoolers.

I heard that the new adult classes (Ballet, Flamenco, Zumba) are great but I have not tried them.
